The number on the epa website is an epa number and they are good to go.

Hi Jennifer and Christie:

I just left you a message, Jennifer, that the "hot line" number Region 6 set up that is posted on the web page is just a number for people to call and leave their name, number, and issue. They don't have any information (they don't even know what they are answering the call for!) to provide. Can we get a sentence below the number that says something like "EPA has established a toll-free number so residents in CO, NM, UT, AZ, and the Navajo Nation who have been impacted by the Gold King Mine release can provide their contact information and be called back with information. The number is available for people to speak to someone in English, Spanish, and Navajo."

Thanks!

Rusty
